# THE MINNESOTA HIKING CLUB

**1**

**Choose your hike.** Find the designated trail in almost any of Minnesota's state parks.

**2**

**Find the password.** Find a sign about halfway through your hike with a unique password to remember.

**3**

**Update your log.** Log the password, state park name, and trail mileage in your Hiking Club book.

**Earn rewards!** Present your log at any state park office to get patches and free nights of camping!

We believe that a **Hiking Club app** would offer an accessible, visual, and motivating way for Hiking Club members to record and revisit their Minnesota State Park hikes, as well as redeem rewards for earning Hiking Club trail mileage.

# OUR RESEARCH

# STAKEHOLDER INTERVIEW

With VERONICA JARALAMBIDES

- A mobile friendly application for ease and accessibility
- Spread park awareness
- Get people outdoors!

- Easy to forget a booklet as opposed to an app
- Use QR codes on hike to log password

# SOME SURVEY STATISTICS

**81%**

of survey respondents  
indicate the use of  
smartphones  
during hike

**68%**

of survey respondents  
indicate logging  
their mileage  
after a hike

**91%**

of survey respondents  
are between the  
ages of 25-45

## SOME QUESTIONS

- Is there an app or device you like to use to track your physical activity?
- Have you ever forgotten your booklet, or forgotten to log your hikes in your booklet?

## SOME ANSWERS

- “Fitbit – syncs with your phone”
- “Peloton, Apple Watch, Strava”
- “We have forgotten our books, but always log the hikes after anyway.”

# USER INTERVIEWS

# USER PERSONA

AMANDA PEARSONS

Amanda is a 30 year old occupational therapist who loves and **thrives in the outdoors**. Amanda struggles because she hikes pretty often, but feels like it is **impractical to log all of her mileage** because she has no way of doing so.

## BACKGROUND

## GOALS

- Would like to enjoy a hike and **easily update mileage**
- Would love an **accessible map** to all hikes nearby
- If traveling would love a way to get **information about hikes** in the area

- Hates hiking in a new place **without a downloadable map**
- Hates losing track of mileage over a period of time because there is **not a way to log it**

## FRUSTRATIONS

# PROBLEM STATEMENT

Minnesota Hiking club members, like Amanda, want to **feel prepared** for each new hike and **easily log the hikes they complete.**

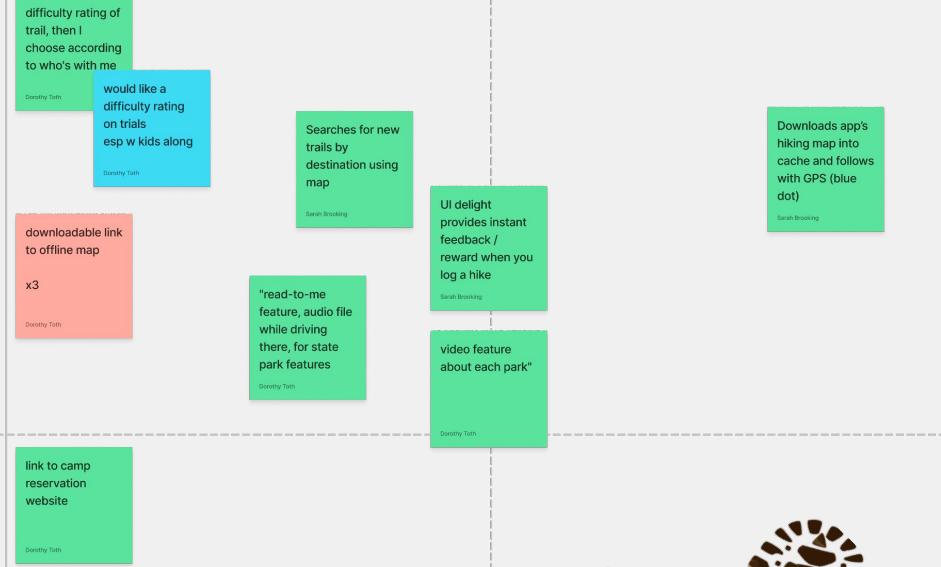

Hikers are currently conducting **their own trail research** on multiple platforms, searching for hike inspiration, trail description and safety details, and in addition, manually logging their **hikes in an easily forgotten booklet.**

How might we help the user **streamline** the planning and logging processes so they can focus on the joy of hiking?

# FEATURES & USER FLOW

user importance

# FEATURE FRENZY!

We sifted through **tons of great interview feedback** – and lots of great feature suggestions!

- Choosing a hike– **map AND list views**
- Read-to-me/**audio** features
- **Videos!**
- Redeem **rewards**
- Download manager for **offline Maps**
- **Reminder notifications...**

# USER FLOW

OUR IDEAS &  
PROTOTYPES!

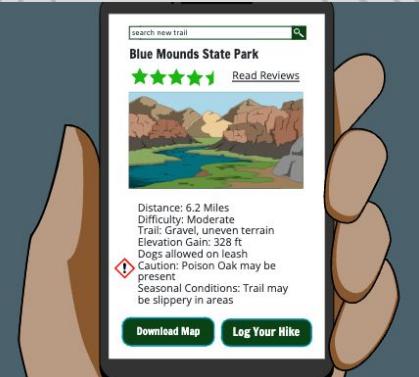

# STORYBOARD

Amanda's friends are ready to hike, but Amanda forgot her MN Hiking club booklet and isn't sure how she'll remember to log her hike.

Amanda remembers another hiker told her about the Minnesota Hiking Club App.

She reads about the trail conditions. And not only can she log today's hike, she can also search other Hiking Club trails!

She downloads a map in case they lose phone signal along the way. She now feels completely prepared.

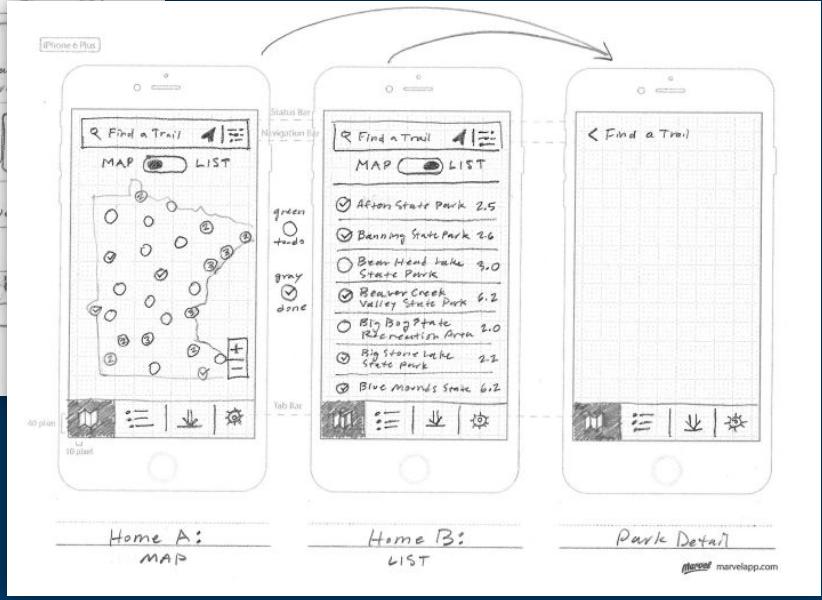

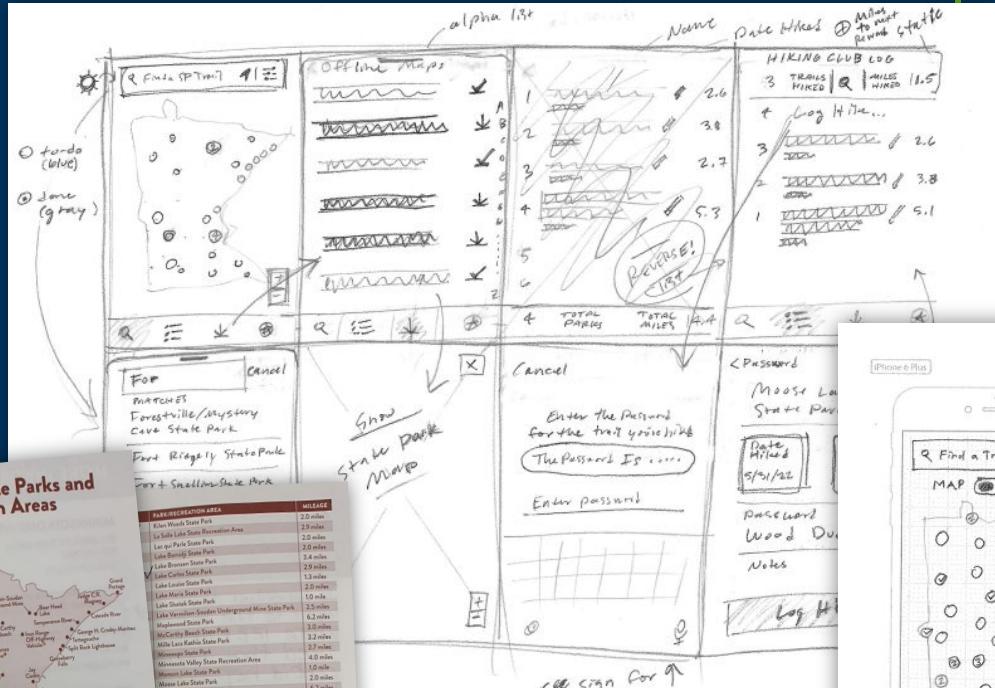

Amanda and her friends enjoy the hike together. Amanda notes the hike's password, confident she'll log it at her convenience.

When they regain phone service, Amanda easily logs her hike. She can view her progress, motivating her to plan her next hike.

# USABILITY TESTING

Fixed in App

Could Fix in App

Addressed in XD Proto

Could Fix in XD Proto

Didn't see / notice the search bar. Dorothy Toth	low contrast of text fields in dark mode in app Dorothy Toth	low contrast of MN green in app Dorothy Toth	add verbiage to log hike button in XD Proto Dorothy Toth	had trouble finding anything that said "log" or "password." in XD Proto Dorothy Toth	wishes the button had words or different icon in XD Proto Dorothy Toth	change the floating button to a + symbol, or even include a button at the bottom that says "update hiking log" in XD Proto Dorothy Toth	add an + to the floating button, add a description, or add another button with text in XD Proto Dorothy Toth	text for toggle between map and list in XD Proto Dorothy Toth
tapping trails does not clear the search or take her back home = that didn't make sense Dorothy Toth	add log hike button to Hiking Log page in XD Proto Dorothy Toth	icon for a 'hike that's been logged' an edit icon in XD Proto Dorothy Toth	wishes confirmation was more colorful, bigger in XD Proto Dorothy Toth	confused where to find profile tried "My Account" instead Dorothy Toth				
				move Club Progress to be contained in the Hiking Log tab in XD Proto Dorothy Toth	finds profile, but goes to About instead of actual Profile Dorothy Toth		add a prompt after logged hike that suggests viewing progress as well as logged hikes could be in XD Dorothy Toth	

During Usability Testing, we tested multiple users on 3 main tasks:

1. Search for a new hike
2. Log Hike
3. View your Hiking Club progress

# NEXT STEPS

- **Trail conditions** – Live-time, detailed descriptions
- Trail **rating explanation** – definition of rating system
- Add **QR code scanning @ parks** – These could be simple, no-internet QRs that return a text password to auto-fill into the app
- **Reminders** to log hikes – could be geo-locational or timed
- **Color/icon-coded park status** – visual system for each park to quickly give a hike status
